The best wireless experience for you

As your demand for multimedia increases, Belkin has tailored networking products to suit your needs. For basic networking needs - such as e-mail and internet - products that support the G standard will more than suffice. The range of Enhanced products is suited for more demanding networking needs, such as increased bandwidth for more users. For network users requiring the highest bandwidth and the greatest coverage, Belkin also provides a series of products supporting the full N standard.

Español

Disfrute de la mejor tecnología inalámbrica

Como la demanda de tecnología multimedia cada vez es mayor, Belkin ha confeccionado productos de red a medida de sus necesidades. Para las necesidades de red básicas - tales como Internet o el correo electrónico - los productos compatibles con el estándar G son más que suficientes. La gama de productos mejorados cubren necesidades de red más exigentes, tales como un mayor ancho de banda para más usuarios. Para los usuarios de red que necesiten un ancho de banda superior y una cobertura aún mejor, Belkin también proporciona una serie de productos compatibles con el estándar N completo.

La migliore copertura wireless

Con l'aumentare della richiesta di prodotti multimediali, Belkin crea prodotti di rete in grado di soddisfare ogni esigenza. Per coloro che hanno bisogno di una rete standard - come ad esempio per controllare la posta elettronica o navigare in Internet - i prodotti compatibili con lo standard G saranno più che sufficienti. I prodotti della serie Potenziata sono invece indicati per persone con esigenze di rete più elevate, come una larghezza di banda maggiore per più utenti. Per gli utenti che hanno bisogno della larghezza di banda più ampia e la copertura più grande, Belkin offre una serie di prodotti compatibili con l'intero standard N.
